RE: Surveying and Mapping (Sam, LLC) Utility Mapping Project

Dear neighbor,

The City of Clinton has hired SAM, LLC to survey and map the city's electric utility system. Generally, this work consists of locating electric poles, pad mounts, junction boxes, and other utility features with global positioning system (GPS) equipment.

This work will be ongoing during the months of June through September and you may notice SAM employees working in your neighborhood. Occasionally, they will need access into and through private property via easements the city has to perform this work. SAM employees will be as respectful and unobtrusive as possible while completing this project.

As with any major project, there will be some inconveniences at times, but services will not be interrupted while this project is taking place. If you have any questions or concerns you may contact SAM, LLC at (660) 562-0050 or Kevin Snelgrove at (864) 833-7520.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Brison G. Taylor'.

Brison G. Taylor

Assistant Director of Public Works and Utilities
